ISSUE ONE

THE DISSIDENTS

EDITOR'S NOTE

Naarm / Melbourne has a reputation as the protest capital of Australia. In recent years its streets have carried demonstrations from both sides of the political spectrum, often within days of each other and sometimes on the same afternoon.

The Dissidents is a record of the people who took part, photographed in Naarm between 2023 and 2026. It does not take a side and it does not rank the causes. Its subject is the demonstrator, and what it shows is a city in a sustained argument with itself.

This is the first issue of Tripping Flamingos Press, a documentary photography zine from Naarm.
